

Computer Problems?

- Slow computer?
- Slow Internet connection?
- Web pages take a long time loading?
 - Got a virus infection?
 - Fed up with pop-ups?
 - Computer won't start?
- Don't know who to ask?

Professional Repairs

We provide a professional repair service for home users and small businesses

Our popular computer repair service continues to cover West Sussex and Surrey.

Our fixed price repair service covers all labour costs, regardless of how long it takes us, when you drop your computer in to us.

We offer a collection and return service for customers, for which there is an additional fee. Please ask for details.

We also do upgrades

We also do upgrades, data transfer to new PCs, wireless networking and data recovery.

When we do a repair, we review and report on the status of the system components and suggest performance improving upgrades. These will be installed FREE at cost of parts only.

Relax, we can help

Don't suffer any more, call us to get the help you need, or drop in to any of our outlets.
We repair PCs, Apple Macs and notebooks/laptops

Home Support Service

Our mission is to keep your computer working worry-free throughout the year.

With our Home Support Service you are just a phone call away from help, backed up by an annual PC health-check.

Please call us on 0845 544 1605 for further information
